

Photo report V34:

Project Wiap KFKOK Vietnam
Project start Nov. 2010. Graduation ceremony
October 2013 to the first group.

Photo 1: On Monday, 01.10.2013 our new group D. came 12 new apprentices. We chose again a new upper garments color. This time orange. Now we have a colored team.

Photo 2: In order to relieve the teachers, we have chosen the two apprentices A, A 09 Hieu A15 Truyen. They left the safety sheets and fill in everything and have the boys admitted.

Photo 3: At our mill Induma the feed drive is defective. We use the opportunity to an apprentice who wants to become an instructor, intensive training in the art and disassemble the machine.

Photo 4: All the feed gear is broken.

Photo 4: Only after almost everything was dismantled, we could find the sheared wedge.

Photo 7: Here we build a vibrating table, which is equipped with 8 rubber dampers.

Photo 5: When disassembling is important to lay everything properly for reassembly. Each spacer is to be re-installed in the right place. A12 does a very good job here.

Photo 8: For the audit we have made 16 such 4-square tube frame. To see if the trainees can weld within 1 mm. 90% was ok.

Photo 6: So now the Induma milling machine running again soon

Photo 9: For our first CNC lathe that we build in the school, the WIAP DM2S is here the turret console scraped.

Photo 12: Our apprentice A13. In the final paper. He shaves only a small part.

Photo 10: Yes, the boys scrape already well on the cross.

Photo 13: Yes, yes. All discs are defective in the welding shields. We bought 20 new again.

Photo 11: We need 2 more, such bandsaws, because we always have jam at the sawmill.

Photo 14: During the audit work in the area 3a, we had to take the apprentices of the B and C group. Here the B group in the space of 5 test it on euro pallets and tables.

Photo 15: In the painting in room 4b, 20 pallet frames are painted blue. They have many tasks that range frame.

Photo 19: Today at noon, 04:10:13 is the graduate trainees of Group A. It is discussed what, how and when.

Photo 16: barriers between the machines that prevent chips, light welding, grinding dust endanger the neighbours. Everyone who works at a machine, is now responsible for ensuring that he does not endanger others.

Photo 20: Since the A and B group may at the ceremony with food, take two apprentices of the C group, for the bar. Is why they are allowed to come to school without upper garments.

Photo 18: Our Apprentice A 18, in determining what is going on with the CNC Sinumerik 810T.

Photo 21: In order to 14:45 the guests arrive. Now all cigarette butts are still collected.

Photo 22: Ok, yet another new feature for our Euro pallets. The stand-up bar.

Photo 25: When drinking beer at the bar discussing all. By the way, a bar is better than sitting at the table.

Photo 23: Now go to our tour of 1000 m / 2 training rooms

Photo 26: Roman from behind and Beat Wafler In conversations.

Photo 23b. During a tour in the middle of our front-Swiss General consult Beat Wafler 5 right of the President of the Swiss Business Association SBA Alex Gruber.

Photo 27: Now comes the food that we ordered from Thu Duc Saigon. From the restaurant there where we always eat. Here, 38 km from Saigon, we know of no one who can cook what we want. There was spaghetti, ham / cheese sandwiches, chicken legs, garlic bread, etc.

Photo 28: Here's our receiving text in the hall of the school.

Photo 31: Here they come running up. Almost like in the military. Tip Top how they do it.

Photo 29: For the ceremony we bought the boys new shirts and ties.

Photo 32: The graduating class has its own table.

Photo 30: Since no one has ever had a tie and they can not tie the button, once we've all made ourselves.

Photo 33: Then various speeches. Iris also has said a few words in Swiss German. The admin Bang behind, has translated directly to Vietnamese. (On english)

Photo 34 Yes here are now all ready for the ceremony

Photo 37: Pride show the boys the awards.

Photo 35: Start of the diploma surrender

Photo 36: The final photo. There are all very proud. We also. We are pleased that the boys have fun.

Photo 38:

Photo 39: Confirmation for the profession Polypratiker. It is then handed over the certificate of impediment.

Photo 40: What to make ties.

Our return trip to Switzerland will be on 10/09/2013.
